

Your Roadmap to Property Restoration

- 1. Arrival & Inspection**
Paul Davis arrives on-site to determine damage & the plan to mitigate your emergency.
- 2. Stabilization**
Utilizing industry leading technology & adhering to IICRC standards, we begin the process to prevent additional damage.
- 3. Mitigation**
Utilizing IICRC best practices we begin the restoration process to preserve your property & remove any non-salvageable items & materials.
- 4. Contents**
The items you treasure most will be cared for & protected, and if necessary, expertly relocated for storage & cleaning by our Pack-Out & Contents team.
- 5. Scoping**
A full project scope will be generated by our Project Management team to ensure repairs are completed to building codes & to your preferences. Any additional selections or project scope can be discussed with our team.
- 6. Approval**
We will work with you & your insurance company (when applicable) to ensure the scope of the project is in line with your expectations & your insurer's guidelines.
- 7. Reconstruction**
Our expert Reconstruction team & trusted trade partners will work diligently to repair your property back to pre-loss conditions, along with any additional upgrades that were previously discussed.
- 8. Celebration**
Our team will be with you every step of the way until you are back in your home. We will celebrate and confirm the completion of the job with you and ensure you are satisfied with your Paul Davis experience.
